

Joint Public Safety Training Campus

AECOM Integrated Delivery

Consolidated CPD and CFD training facilities to a single campus for cross-training. The 180,000 SF academy's main building features classrooms, administrative offices, labs, simulators, conference rooms, an auditorium, and a second building features a pool for water rescue training and shooting range. Also includes a driving course, a skid pad, and a place for hands-on practice. The project included extensive site work.

Location

Chicago, IL
